EDUCATION

Emory University, Atlanta, Georgia

December 2026

Bachelor of Science; Computer Science

Relevant Coursework: Data Structures & Algorithms, Database Systems, Design Methods in HCI, Artificial Intelligence

SKILLS

Programming Languages: **Java, Python, C, Unity, C#, JavaScript**

Research Methods: Participatory Design, Usability & Prototype Testing, Interviews, Surveys, Focus Groups, Qualitative

EXPERIENCE

Co-Founder of SimAI

August 2025 - Present

- Programming a AI garment design tool that creates 500+ custom panels and reduces creation time by 45%.
- Designing AR/VR integration to guide designers through a step-by-step interactive visual garment construction.

VR Research Intern at Carnegie Mellon University, Pittsburgh, Pennsylvania

May 2025 - Present

- Developing immersive virtual environments in Unity using C# to design inclusive VR systems for disabled people.
- Facilitating user research and evaluated 50+ locomotion techniques to develop evidence-based design guidelines for future accessibility-focused Virtual Reality applications for over 20 diverse motor accessibility needs.
- Constructing codebook for analyzing movement patterns, interaction data, qualitative, and quantitative feedback.

Research Assistant at D.E.T.O.U.R. Research Lab, Atlanta, Georgia

January 2025 - Present

- Led speculative design workshops teaching and collaborating with 15+ Black women using 3D printing, laser cutting, embroidery, sewing, and Arduino to prototype technologies addressing community needs.
- Conducting Sister Circles, an intersectional data collection method, centering participants as research partners.
- Analyzing qualitative data from participant journals, sketches, and design documentation to inform HCI research.

Product Designer at BravenX

September 2024 - December 2024

- Partnered with United Airlines to design prototypes to enhance flight experience and boost brand loyalty by 50%.
- Built connections with cross-functional teams to prioritize features based on user feedback and business goals.

LEADERSHIP AND COMMUNITY ENGAGEMENT

Co-Founder of StackLink

May 2025 - Present

- Lead and manage a student mentoring program where upperclassmen mentors coach 25+ underclassmen through academic planning, personal reflection, and bi-weekly goal-oriented sessions.
- Coordinating promotional efforts for events such as tutoring support, career fairs, and networking sessions.

Secretary at ColorStack

February 2025 - Present

- Record detailed meeting notes and ensure timely follow-up on action items among board members.
- Collaborate with STEM leaders in outreach events to support increasing Black and Latinx representation in tech.

PROJECTS

CheckMate App

August 2025 - Present

- Developing a fullstack deadline management app using Python, Next.js, FastAPI, and Supabase that automatically scans syllabi, categorizes assignments across courses, and delivers escalating reminders as deadlines approach.

Financial Behavior Across Generations (UX Research)

February 2025 - May 2025

- Executed user research using in-depth interviews and affinity mapping to explore how generational experiences influence credit card habits and financial stability.
